SOP - Add a new department to the Munki platform
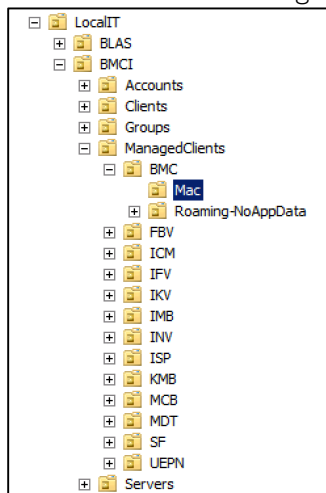

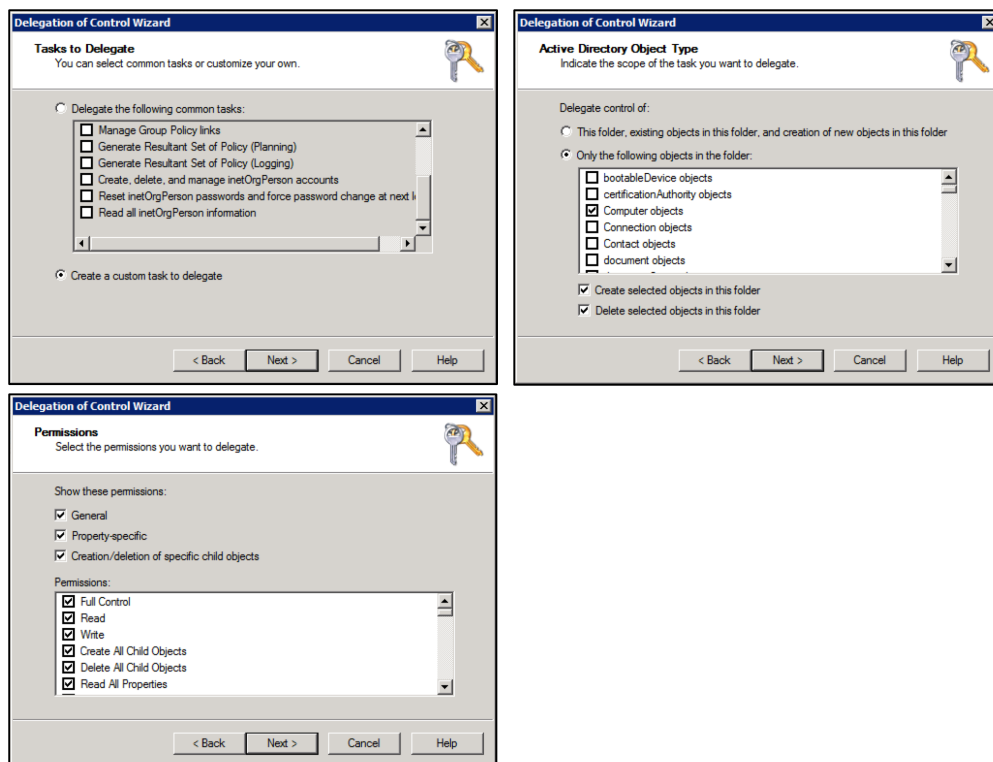

1 Purpose

This is a documentation of the steps taken to add a new institution to the Munki platform.

2 Active Directory

- Create OU=Mac for the department:
  "…/LocalIT/BMCl/ManagedClients/<inst>/Mac".

- Give group "bmc computing department" "Full control" to the Mac OU.
- Delegate control to OU=mac to admin account "bmc-autoadmin-munki".
  - Create a custom task to delegate
  - Computer objects (Create/Delete selected objects in this folder).

Delegation of Control Wizard

Tasks to Delegate
You can select common tasks or customize your own.

○ Delegate the following common tasks:
- ☐ Manage Group Policy links
- ☐ Generate Resultant Set of Policy (Planning)
- ☐ Generate Resultant Set of Policy (Logging)
- ☐ Create, delete, and manage inetOrgPerson accounts
- ☐ Reset inetOrgPerson passwords and force password change at next l
- ☐ Read all inetOrgPerson information

● Create a custom task to delegate

3 Munki

- Create a default set of manifest files for the institution that are about to join the Munki platform.
    - o Run script: munki_repo/scripts/addInstToMunkiPlatform.sh
    - o Move the set of files to munki_repo/manifests/
- Give the department VLAN access to the Munki server (Instructions at login to the server).
